California State Sales Tax added to all food and drinks
Where did the Batter Up idea originate?
Becci had a prophetic dream outlining the gist of the business plan while in Tucson, Arizona, at Michael’s U of A baseball series.

Why baseball terms and proper names?
We love baseball. Our son was a former minor league baseball player for seven years. Proper names are those of family members, dear friends and loved ones.

Who is the face of the logo?
Our grandson Benson, who was sixteen-months old when the original logo was created. Our granddaughter, Nicolla, is featured on a new line of dry seasoning mix and our littlest angel, Tessa, is the namesake for our popular Tessa Cate Cinnamon Roll Cakes.

Why do the pancakes taste homemade?
Our pancakes taste homemade because they are made from rich buttermilk, real eggs, pure vanilla extract and butter. They rise on the grill slowly, much like a cake in the oven. The average time for a pancake to cook once placed on the grill is six to seven minutes.

How much buttermilk do you use in a given week?
We use approximately 580 half gallons of buttermilk monthly.

What kind of pancake mix do you use?
Our pancake mix is Jeff’s secret recipe. We make approximately 500 pounds of dry pancake mix weekly in our 80-quart Hobart mixer. We sell packages of our dry mix in our retail area, where you’ll find original buttermilk, whole grain blue cornmeal and protein varieties. You can also purchase dry mixes online via our website.

What makes the omelets taste so light and flavorful?
The omelets are made from AA eggs that we hand crack. We use approximately 4,000 eggs per week. All the veggies are fresh and many are sautéed separately, then added into the omelet. The veggies and omelets are cooked in clarified butter which makes them simply delicious.

Do you cater?
YES, WE CATER! Please see your website at www.batteruppancakes.com for the full catering menu or ask for a copy of a menu when you are visiting.

Is everyone who works here a family member?
Not biologically, but we like to treat each employee as if they were part of our family. They are selectively hired and all are an integral part of our team.

What type of coffee do you serve?
We are proud and humbled to announce that we have most recently become a satellite for Kuppa Joy Coffee, created by the amazing Zack Follett. Zack currently has two Fresno locations (the original on Clovis Ave. and most recent on North Echo Ave) both of which are closed Sundays. Zack had been seeking additional opportunities to grow his business by partnering with local businesses that would be a fit for his vision and principles behind his infamous coffee houses and ministry. We were honored he approached us to provide his product and create his masterpiece espresso drinks to serve our friends and customers at Batter Up Pancakes. Utilizing Zack’s mastery of microfoam to create the decadently smooth, creamy steamed milk which is then carefully introduced to the rich, consistently pulled espresso, the yield is both a visual as well as palatable gift to be savoured.

“Kuppa Joy was created while on a mission trip six years ago in a small coffee shop in England. It was inspired by the scriptural truth of the promise that there will be “no condemnation for those who are in Christ.” Being filled with both joy and a delicious cappuccino, the mission was clear: to spread God’s love and the promises He offers to the people of the Central Valley through the atmosphere of a coffee shop. Through this, the principles of loving God, loving people and loving coffee came to fruition.

It is our passion to serve you with excellence; therefore, Kuppa Joy Coffee roasters work diligently to bring you a product that is unmatched in the Valley.

We are striving to better our community by giving and serving local organizations in need.

For more information about our story and locations, please visit www.kuppajoy.com.

- Zack Follett”
